

## Step by step guide to access and use student portfolios on Class Dojo

### 1. Log out as a parent.

Top right-hand side of the screen. Click on the picture of the little man.

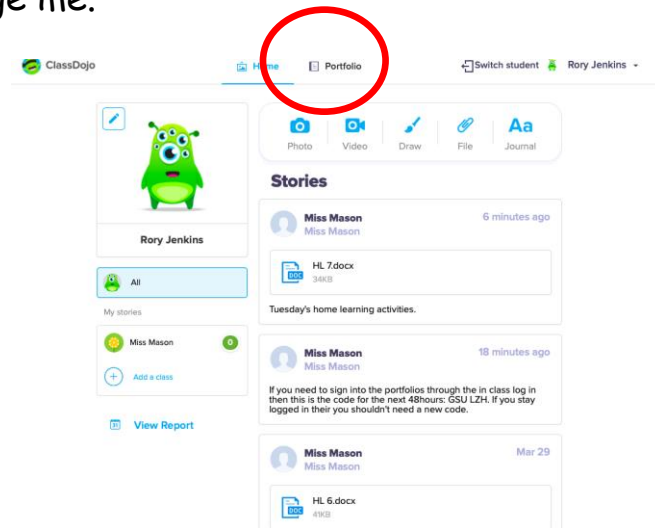

### 2. Log back in as a student.

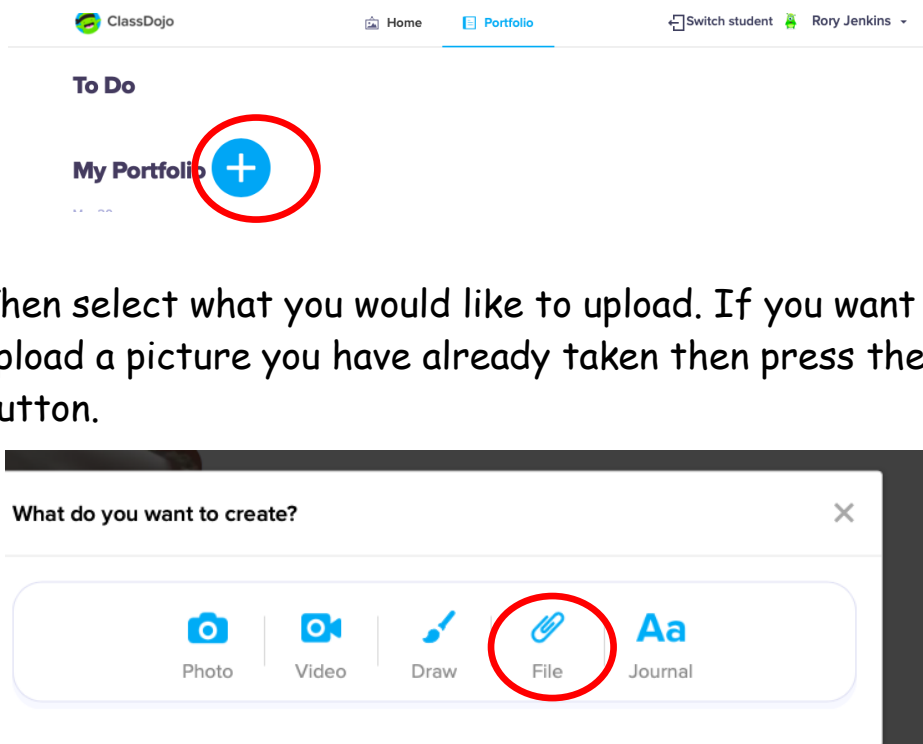

### 3. Choose how to log in.

- a. If you press the QR code then you need your funny looking barcode to scan (see front of child's reading record). This will take you straight to your child's portfolio.

4. This is what their page will look like. It shows all of the things I have uploaded. Unfortunately, there is no way for you to comment on my posts through the student login so you would need to log back into the parent login if you need to comment or message me.

5. To upload photos of the children's work press the portfolio tab as shown in the picture above. Press the blue circle with the + sign in.

6. Then select what you would like to upload. If you want to upload a picture you have already taken then press the file button.

7. Then press image and finally browse. This will take you to the photos on the computer, phone or tablet just select the ones you want and they will be sent to me to approve. Once I have approved them they will appear on their portfolio page (see step 6).
